Beginning Sunday
and
Continuing Through the Week.

Tired and worn, and weak, and weary, and hungry, and desolate, and starving, and homeless—and still the story is not half told.

Four million Armenians, Syrians and other war-sufferers in Western Asia are destitute, being practically without food, clothing or shelter, the vast majority, helpless women and children.

You are asked for \$37,000.00 as our share to sustain the lives of 3,950,000 Christians and Jews through their return to a new life, free from religious and political persecution.
